## FHLB Des Moines Announces First Quarter 2023 Financial Results

The Federal Home Loan Bank of Des Moines (the Bank) announced today unaudited financial results and declared a dividend for the first quarter of 2023. The Board of Directors approved a first quarter 2023 dividend at an annualized rate of 7.95 percent on activity-based stock, an increase of 0.20 percent from the prior quarter, and 3.00 percent on membership stock, unchanged from the prior quarter. Dividend payments totaling \$109 million, based on average stock outstanding during the first quarter of 2023, are expected to be paid on May 11, 2023.

The increased dividend rate on activity-based stock is a result of changes in interest rates and business activity and reflects the Bank's philosophy to pay a consistent dividend equal to or greater than the current market rate for a highly-rated investment, and at a rate that is sustainable under current and projected earnings to maintain an appropriate level of capital and retained earnings. Future dividends are at the discretion of the Bank's Board of Directors and may be impacted by economic and market conditions.

### Financial Results Discussion

**Net Income** - For the three months ended March 31, 2023, the Bank recorded net income of \$191 million compared to \$54 million for the same period in 2022.

**Net Interest Income** - For the three months ended March 31, 2023, the Bank recorded net interest income of \$282 million, an increase of \$183 million when compared to the same period in 2022. The increase was driven by higher interest rates, which improved earnings on invested capital, and growth in advance balances.

**Assets** - The Bank's total assets increased to \$186.4 billion at March 31, 2023, from \$164.2 billion at December 31, 2022, driven primarily by an increase in investments and advances. Investments increased \$14.1 billion driven primarily by increased money market investments of \$11.5 billion and the purchase of agency mortgage-backed securities. Advances increased \$7.8 billion due mainly to an increase in borrowings by depository institution members.

**Capital** - Total capital increased to \$9.1 billion at March 31, 2023 from \$8.8 billion at December 31, 2022, primarily due to an increase in activity-based capital stock resulting from an increase in advance balances.
