AMORTIZING ADVANCE

Amortizing Advances can be structured to match a variety of fixed-rate mortgage amortization schedules, giving you the flexibility to customize the advance to meet your specific funding needs.

FEATURES

- Amortization periods up to 30 years with balloon/final maturities up to 30 years
- Monthly, quarterly, semi-annual or annual payment schedules based on:
 - Level Payments* – Equal periodic principal and interest payments over the life of the advance
 - Level Principal Payments – Equal periodic principal payments over the life of the advance
- Available with delay feature which makes proceeds available on day one, but commencement of the repayment of the principal can be delayed for up to five years
- An option to prepay without incurring a prepayment fee following a member-selected lockout date can also be included
- Available with symmetrical prepayment feature, excluding Community Investment Advances (CIA)
 - Symmetrical prepayment feature requires \$1million minimum size and maximum term to maturity of 10 years
- Symmetrical prepayment features are not available on Amortizing Advances with a delayed amortization or prepayment (call) feature
- Actual principal and interest payments charged over the life of the advance may differ between billing periods due to the Bank's use of an Actual Day/360 Day calendar in its interest calculations.

BENEFITS

- Match the scheduled amortization characteristics of many fixed rate assets
- Manage long-term and cash flows
- Control the timing of the principal cash flows and the repayment of the advance with the delay feature

PRODUCT OVERVIEW

Availability	Same day
Term Limitations	1 year to 30 years

SYMMETRICAL PREPAYMENT FEATURE

A Symmetrical Prepayment feature is unique to our Long-term Fixed-rate and Amortizing advances. This feature allows you to prepay an advance and potentially realize a gain if interest rates rise to a level greater than those that existed when the advance was originated.

FEATURES

- No cap on realized gains
- Flexibility to adjust funding to match changes in your institution's interest rate risk profile
- Potentially no prepayment fee if rates rise to a certain level from origination
- Minimal increase in rate in comparison to standard fixed-rate advances
- Minimum advance size of \$1 million
- Maximum term to maturity of 10 years
- The Symmetrical Prepayment feature is not available on Community Investment Advances (CIA) or Amortizing Advances with a delayed amortization or prepayment (call) feature.

BENEFITS

- Protect the value of a portfolio of long-term assets in a rising rate environment
- Hedge a mortgage-backed security or other optionable securities
- Provide stable, non-rate sensitive mortgage funding
- Offset losses on securities
- Potentially monetize gains from market rate increases

HOW IT WORKS

Assume you take out a five-year, \$10 million Fixed-rate Advance at 2.02 percent. You utilize the Symmetrical Prepayment feature, which in this example adds 5 basis points to your rate, totaling 2.07 percent.

SECURED OVERNIGHT FINANCING RATE (SOFR) ADVANCE

A variable rate advance that serves as a source of liquidity and is priced based upon the prevailing SOFR reference rate as published by the Federal Reserve Bank of New York.

FEATURES

- Interest on SOFR advances is calculated based on the average SOFR observed for the relevant Interest Period plus a spread
- The rate on SOFR advances will reset each calendar day in the relevant Interest Period
- For any Rate Reset Date that is not a U.S. Government Securities Business Day, the Reference Rate for such Rate Reset Date will be the SOFR published on the first U.S. Government Securities Business Day immediately preceding such Rate Reset Date
- The Rate Cut-Off Date shall be the second U.S. Government Securities Business Day prior to the Interest Payment Date in respect of the relevant Interest Period. During a Rate Cut-Off Period, the Reference Rate for each Rate Reset Date during the Rate Cut-Off Period will be the SOFR in effect with respect to the Rate Reset Date that coincides with the Rate Cut-Off Date
- Interest is paid monthly or quarterly with principal due at maturity

BENEFITS

- Source of liquidity at rates comparable to other short-term liabilities
- Means of funding other indexed rate assets

communityinvestment@fhlbdm.com

COMMUNITY INVESTMENT ADVANCE

Community Investment Advances (CIA) are priced below corresponding regular advance rates and promote qualifying economic development initiatives in FHLB Des Moines member communities. There are two types of Community Investment Advances – Commercial Lending and Residential Lending.

COMMERCIAL LENDING

A Commercial Lending Advance supports loans originated for commercial, industrial, manufacturing, social service, public facilities projects and activities, and public and private infrastructure projects, such as roads, utilities and sewers.

ELIGIBILITY CRITERIA

- Eligible projects include commercial loans in target areas, loans to small business and loans to businesses and projects that support targeted incomes. Eligible loans would include direct loans, purchase of a participation interest in a loan or purchase of municipal bonds where the project financed by the bond is a CIA eligible project. Loans may be new originations or refinance of existing loans.
- Minimum borrowing amount \$25,000
- Advances from one to 30 years

BENEFITS

- Promotes community economic development
- Supports small businesses and farms
- Helps businesses retain and create jobs in the community
- Reduces interest rate risk of long-term advances

RESIDENTIAL LENDING

A Residential Lending Advance supports loans originated to purchase, construct, rehabilitate or refinance affordable owner-occupied and rental housing.

ELIGIBILITY CRITERIA

- Advances are available for residential real estate loans made to low- and moderate-income owner-occupied households or can be used to support affordable rental projects.
- Loans may qualify in targeted areas. Loans originated in targeted areas qualify regardless of the income of the households served.
- Advances may be taken to support direct loans, purchased loan participations and the purchase of qualified mortgage revenue bonds or mortgage-backed securities. Loans may be new originations or refinance of existing loans.
- Minimum borrowing amount of \$100,000
- Advances from one to 30 years

BENEFITS

- Provides affordable housing and promotes economic development
- Can be used in targeted areas regardless of the income of the borrower
- Reduces interest rate risk of long-term advances

Loans used to qualify for CIA must be originated within the three months prior to the date of an advance, or a member may take down an advance on loans to be closed. If the latter, a member must originate qualifying loans within 12 months of the date of the advance.

FREQUENTLY ASKED QUESTIONS

WHAT DO I NEED TO HAVE IN PLACE IN ORDER TO BORROW?

- Complete and submit all agreements and forms.
- Adequate collateral must be pledged and credit capacity maintained prior to any advance request.
- All advances require activity stock. Activity stock requirement on advances is currently 4.50 percent of advance proceeds and is debited from your Demand Deposit Account (DDA) at the end of the business day.
- Advances of any type, term or amount can be requested through the Money Desk, by calling 800.544.3452, ext. 2122.
- Term advances may be requested through eAdvantage up to the following limits:

Available Term Limit	Daily Limit
Up to 364 Days	\$250 million
1 - 5 years	\$50 million
5 - 30 years	\$50 million

- Advance proceeds will be deposited to your DDA. If a Delivery of Advance Proceeds Form has been submitted, advance proceeds will be wired directly to the account you've identified.

WHERE CAN I ACCESS ADVANCE RATES?

- Rate indications are available to members within eAdvantage. Your eAdvantage Administrator can set up "ViewRatesOnly" user entitlements to view advance rates in eAdvantage.
- Not sure who your eAdvantage Administrator is? Contact Member Services: memberservices@fhlbdm.com

HOW IS BILLING HANDLED?

- Principal payments, when applicable, are collected on the last business day of the month or at maturity.
- Interest payments are collected monthly, calculated from settlement date, at maturity or on advance rate reset dates.
- Principal and interest for maturing advances are memo posted in eAdvantage the previous business evening, but charged on the morning of the maturity date. For advances not maturing, interest payments are charged to the member's primary Demand Deposit Account at end of day.

WHAT IS THE METHOD OF INTEREST ACCRUAL?

- Advance interest is calculated on an actual/360 day basis.

WHAT IS A UNIQUE FUNDING OPPORTUNITY?

- At times, the Bank may offer discounted rate specials. Unique Funding Opportunities are available for limited time and on specific advances and terms.
